Golden Smog, Nowhere Bound

(Perlman, Murphy, Johnson) It don't matter if I lose It's how I play the fool Somewhere down the line it all got Twisted, torn, and tossed and thrown away It all looks the same to me What you want I'll never be Chorus: And I can't seem to get it right But I wanna get off right now I can't seem to get it right But it's all so wrong, somehow Did you think I wouldn't return. Did you think I wouldn't return Did you think that I was dead. Did you think that I was dead Did you think I'd crash and burn Did you think it was my turn Radio plays, I'm coming down Road stretches out, but it ain't - Lord I'm home I'm not big on being amazed I'm in a haze, I'm lost - Nowhere bound And all my friends they jumped the wagon Parked today, tails a-waggin' (Chorus)
