

Goldfinger, I Want

Dont want to spend my time, wishing you were here
Dont want to spend my time alone
Dont want to waste my life, dwelling on the past
Dont want to lock myself at home

Cause I want, I need, nothing less than you
I want nothing else at all

Dont want to make my excuses
Explaining it away
Just want to spend my time with you

Dont want to walk on ice
Dont want to live on edge
Cause on the edge
Im looking down

I want more, I want more

Dont want to spend my time
Wishing you were here
Dont want to spend my time alone
