## Goldfinger, I Want

Dont want to spend my time, wishing you were here Dont want to spend my time alone Dont want to waste my life, dwelling on the past Dont want to lock myself at home

Cause I want, I need, nothing less than you I want nothing else at all

Dont want to make my excuses Explaining it away Just want to spend my time with you

Dont want to walk on ice Dont want to live on edge Cause on the edge Im looking down

I want more, I want more

Dont want to spend my time Wishing you were here Dont want to spend my time alone
