

# Goldfinger, My Everything

I know you take from me  
I know you take away my everything  
...my everything  
I know your every way  
I know you make your way to everything  
...into everything

I know your threat runs deep  
I know you in my sleep  
and all this time...  
I find it hard to swallow

I know your history  
I know what you mean to me  
...my everything  
...my everything

I know your mystery will not be clear to me  
...my everything  
...my everything

I know your threat runs deep  
I know you in my sleep  
and all this time...  
I find it hard to swallow

I know your mine to keep  
I know I'll always be  
all this time...  
I find it hard to swallow

I know you take from me  
I know you take away my everything  
...my everything  
I know your every way  
I know you make your way to everything  
...into everything

I know your threat runs deep  
I know you in my sleep  
and all this time...  
I find it hard to swallow

I know your mine to keep  
I know I'll always be  
all this time...  
I find it hard to swallow
