

Goldfrapp, Boys Will Be Boys

I've had nights I will never forget
I've had nights I will always regret
but I can take it on the chin
and say boys will be boys

There's been girls that have stolen our hearts
but their arms couldn't be simply prised apart
they'll never let us in
say boys will be boys

Boys will be boys
We cheat and we lie
Boys will be boys
Boys will be boys

I've had nights I will never forget
I've had nights I will always regret
They'll never let us in
Say boys will be boys

Boys will be boys
We cheat and we lie
Boys will be boys
Boys will be boys
