

# Goldie Hill, What's Happened To Us

What's happened to us all we do now is fuss  
And our love is not the same as it used to be  
You say I'm untrue I feel the same way bout you  
Oh darlin' please tell me what's happened to us  
That old feeling's gone and we can't go on living together and yet so alone  
Oh let's stop it over oh darlin' don't fuss  
And we'll figure out just what's happened to us  
[ fiddle - steel ]  
That old feeling's gone...
