

# Gomez, Blind

You're stuck with me and I can never see it changing  
Do you believe this mess is getting any better?

Will you ride it out with me?  
I can't see what it is I should or shouldn't be doing

Time and time again I told you  
I won't be around when your phone stops ringing

And I can't fight  
The past blinds me  
And I won't mess with your woman  
So don't you mess around with me

I told you once or twice before but you won't listen  
I tried my best but you do not seem to be hearing

I'm not surprised that we all keep telling lies  
So let's just fight - I am resigned

Time and time again I told you  
I won't be around when your phone stops ringing

And I can't fight  
The past blinds me  
And I won't mess with your woman  
So don't you mess around with me

And I can't fight  
The past blinds me  
And I won't mess with your woman  
So don't you mess around with me

And I can't fight  
The past blinds me  
And I won't mess with your woman  
So don't you mess around with me

And I can't fight  
The past blinds me  
And I won't mess with your woman  
So don't you mess around with me

And I can't fight (Will you ride it out?)  
The past blinds me (Will you ride it out?)  
And I won't mess with your woman (Will you ride it out?)  
So don't you mess around with me (Will you ride it out?)

And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)  
And I... (Will you ride it out?)
