

Gomez, Bring It On (Radio Edit)

If I was inordinately different
Than what you say
I'd lie, I would lie
If you could release me now
You know that I won't hesitate
To lie, I would lie

Bring it on, make it right
Bring it on, to the light
Pick me up, satellite
If it's wrong, make it right

If I lied and told you that
You're difficult or hard to take
I'd lie, I'd still lie
If you tried to please me now
You know that I won't remonstrate
But lie, I would lie

Bring it on, make it right
Bring it on, to the light
Pick me up, satellite
If it's wrong, make it right

We like quiet nights on the island
We five, battered stars round our heads
We can reach new heights in this silence
We're dragged slowly towards the end

Bring it on, make it right
Bring it on, to the light
Pick me up, satellite
If it's wrong, make it right

Bring it on, make it right
Bring it on, to the light
Pick me up, satellite
If it's wrong, make it right

If I was inordinately different
