

# Gomez, Ping One Down (Live Version)

We'll return to the ocean  
Ride the tide again  
Taste the water, jump right in  
And try to swim

So ping one down  
(How you gonna make your way outta there?)  
Let it settle  
(How you gonna make your way outta there?)  
Sink on down  
(How you gonna make your way outta there?)  
Like heavy metal  
(How you gonna make your way outta there now, fool?)

We should take off the lotion  
Let the sun shine in  
Admire the holes with shaded eyes  
And fry again

And ping one down  
(How you gonna make your way outta there?)  
Let it settle  
(How you gonna make your way outta there?)  
Sink on down  
(How you gonna make your way outta there?)  
Like heavy metal  
(How you gonna make your way outta there now, fool?)

Ping one down  
Let it settle  
Don't ponce around  
Like poodle metal

Colour clean  
This sterile scene  
Move as we please  
No use in complaining  
(How you gonna make your way outta there?)

Purify now  
Saints alive  
We're all deprived  
Be careful what you're saying  
(How you gonna make your way outta there?)  
How you gonna make your way outta there now, fool?)

We've been on a safari  
Just collecting skin  
Head to toe in camouflage  
But high again

So ping one down  
(How you gonna make your way outta there?)  
And let it settle  
(How you gonna make your way outta there?)  
Sink on down  
(How you gonna make your way outta there?)  
Like heavy metal  
(How you gonna make your way outta there now, fool?)

Colour clean  
This sterile scene  
Move as we please  
No use in complaining

Purify now  
Saints alive  
We're all deprived  
Be careful what you're saying  
(How you gonna make your way outta there?)  
(How you gonna make your way outta there?)

Careful what you're saying  
(How you gonna make your way outta there?)  
(How you gonna make your way outta there?)

Careful what you're saying  
(How you gonna make your way outta there?)  
(How you gonna make your way outta there?)
