

# Gong, Shamal

Deep deep within you  
In a secret place  
Deep deep within you  
Everything you want to know lies  
You're just killing time  
Don't matter what you found  
Doesn't break out your mind  
Running around in space  
Running through the wind  
In a special place  
Standing in the middle

Deep deep within you  
Deep deep within you  
Deep deep within you

There's a strange wind blowing through us all  
There's a strange wind blowing through us now
