

Goo Goo Dolls, Do You Believe In Him

'Twas the night before Christmas
And all through the house
By the color TV
Here asleep on the couch
All cozy and warm
With a dream for the light
Inside it's safe
On a cold Christmas night
Do You believe in him?
I don't know how long it's been
Do you believe in him?
All you got to do is let him in
All you got to do is let him in
'Twas the night before Christmas
And out on the street
Through the window the snow such a holiday treat
Outside the trees and the cars in the back
Are perfectly dressed for a wine when it's time
Do You believe in him?
I don't know how long it's been
Do you believe in him?
All you got to do is let him in
All you got to do is let him in
'Twas the night before Xmas
A man sleeps alone
Out in the cold cause he ain't got a home
Give him a hand, give him a share
Let's give him a smile
Instead of a stare
Do You believe in him?
I don't know how long it's been
Do you believe in him?
All you got to do is let him in
All you got to do is let him in
