

# Goo Goo Dolls, Loving Life

Today, there's a pathway  
Take the next left down the hall  
Meet you halfway  
Then you'll have to take my call

I've got a feeling  
It's something that you're needing  
You looked outside, you've dreamed it all  
In a lost crowd  
Ready to be found now  
Look ahead we'll hear it all

I've seen the sunbeam shine a light with  
All the shadows gone from sight and I  
Really hope you believe in loving life  
(Really believe it, I really believe it)  
Reaching deep with steady nerves for sure  
In a quiet way we'll shake the world  
I really hope you believe in loving life  
(Really believe it) I really believe it

Today, what you don't say  
It don't make no sense at all  
Walking 'round town  
With your heads all in the clouds

I've seen the sunbeam shine a light with  
All the shadows gone from sight and I  
Really hope you believe in loving life  
(Really believe it, I really believe it)  
Reaching deep with steady nerves for sure  
In a quiet way we'll shake the world  
I really hope you believe in loving life  
(Really believe it) I really believe

I've seen the sunbeam shine a light with  
All the shadows gone from sight and I  
Really hope you believe in loving life  
(Really believe it, I really believe it)  
Reaching deep with steady nerves for sure  
In a quiet way we'll shake the world  
I really hope you believe in loving life  
(Really believe it) I really believe it
