

# Good Charlotte, Overcome

(featuring Jepetto)

I was raised to believe what I see  
So I pray to God  
Give me strength, help me breathe  
When they suck life from me  
Something's wrong

Anything wrong with me  
I don't see  
Anything wrong with me  
So I write and I pray  
And I live day to day  
And I wait for the Son  
And I love everyone  
Still they find something wrong

Anything wrong with me  
I don't see  
Anything wrong with me

You can't hide what's inside...  
You can't hide what's inside when you die...  
You cant hide what's inside/when you die/you will die...

Break me  
Break me down

You can't hide what's inside when you die...  
You will die...
