

Good Charlotte, Victims Of Love

In the beginning, I tried to warn you,
You play with fire, its gonna burn you,
And here we are now, the same situation,
You never listen, I never listen,
Now I am thinking of a way that I can make an escape,
It's got me caught up in a web and my heart's the prey,
Do you really wanna throw your heart away, away, away?

Everybody's hurt somebody before,
Everybody's been hurt by somebody before,
You can change but you'll always come back for more,
It's a game and we are all just victims of love.
Don't try to fight it, victims of love,
You can't decide it, victims of love, victims of love.

Now you've back tracked,
You're running away cause it just happened again and you just want it to end,
Trying your best to not let yourself go cold, so cold.
Now you think about the things you thought you wanted to say,
But when you open up your mouth it don't come out that way,
Are you really gonna throw your heart away?

Everybody's hurt somebody before,
Everybody's been hurt by somebody before,
You can change but you'll always come back for more,
It's a game and we are all just victims of love.

Don't try to fight it, victims of love,
You can't decide it, victims of love, victims of love.

In the beginning, I tried to warn you,
You play with fire, its gonna burn you,
And here we are now, the same situation,
You never listen, I never listen,

Everybody's hurt somebody before,
Everybody's been hurt by somebody before,
You can change but you'll always come back for more,
It's a game and we are all just victims of love,
Everybody's hurt somebody before,
Everybody's been hurt by somebody before,
You can change but you will always come back for more,
It's a game and we are all just victims of love.

Don't try to fight it, victims of love,
You can't decide it, victims of love, victims of love.
