

Good Riddance, In My Head

I can't pull in all the stops
But it rained on all of this
With the sirens in my sleep
And her sorrow at my kiss

I can't turn away
Hold the half turn when you pray
All the vanity and fate
Written on her crazy face

Here in my head I here you say
Here in my head I here you pray

Time is what it's made
Made by all those i regret
"Remeber me" I hear it said
Other faces I'd forget

Hope you get up off your feet
Shake the dust out of your shoes
City lights and all my jazz
And all my demonstrations too

Here in my head I here you say
Here in my head I here you pray

Time is what it's made
Made by others i regret
Remeber we are here and sad
All the faces I'd forget

Here in my head I here you say
Here in my head I here you pray
Here in my head I here you say
Here in my head I here you pray
