

Good Riddance, Jeannie

Friday night she's not alone
I wonder who's going to drive her home
And walk her to the door
And will she give him a good night kiss
Monday at school she says hello
I fight the tears as I watch her go
She'll never know what she means
To this lonely boy
If you'd only take a walk with me
Just give me some time and you might see
I could be your hero if you'd let me in
You can't deny what's in your heart
And you know i'm trying to be a part
You can do better than those other boys
