

Good Size, The Pineapple Song

(Chorus)

Ya Boom - Pine...apple wine - ya dollar fifty all da time

Ya Boom - Pine...apple wine - ya dollar fifty all da time

Turn 'round and let me see ya

Turn 'round and let me see ya

Ya own - Pine...apple wine - ya dollar fifty all da time

I got a new dance

Hot like pepper-pot

From the old to the young

Gonna make your body rock

It's really easy - easy peasy

You can do it anywhere

Jump around like you don't care - singin'

(Chorus)

A young man broke his leg

Old granny broke her back

And Jimmy got a migraine from a falling coconut

Dead uncle was confused

He has a solution - a bottle of the apple wine was his prescription

It cured da broke leg

It cured da bad back

It cured da migraine - even cured da heart attack

The people started jumping

'Cause they were feelin' fine

The city's greatest sin was the boom-pine-wine

(Chorus)
