

# Goodnight Nurse, My Only

What happened to you and me?  
One moment changed everything  
It's done and there's no way to take it back  
Mistake gave me the pain I never had  
There is no way to justify it so  
Now I breathe in and let go

This is the end of everything  
Goodbye my only  
I hang my head and I give in  
Goodbye my only friend

Part of me I'll never see  
Come visit me in my dreams  
I feel my actions are destroying me  
Deep down below the shallow life I lead  
This pain is mine to keep and call my own  
I'll carry it until I'm gone

This is the end of everything  
Goodbye my only  
I hang my head and I give in  
Goodbye my only friend

I can't forgive myself that I let go  
My life is worth no more than yours I know

This is the end of everything  
Goodbye my only  
I hang my head and I give in  
Goodbye my only friend
