

Goodnight Nurse, Suffocating Slow

Take a look at me
For I can barely breathe
I'm suffocating slow
But no one seems to know
As my life drips from me
I'm tearing at the seams

Carry on til the fire
In my heart burns out
As long as an ember
Still survives I will not fade
I will not fade today

Time is haunting me
I'm bound by loyalty
And down to my last breath
I'll give all I have left
Until my dying day
This sacrifice I made

Carry on til the fire
In my heart burns out
As long as an ember
Still survives I will not fade
I will not fade today

These breathless words
I keep them near
If I'm to die 'm not scared
These breathless words
I keep them near
If I'm to die I'm glad I'm here

Carry on til the fire
In my heart burns out
As long as an ember
Still survives I will not fade
I will not fade so

Carry on til the fire
In my heart burns out
As long as an ember
Still survives I will not fade
I will not fade so

Carry on til the fire
In my heart burns out
As long as an ember
Still survives I will not fade
I will not fade today
