

Goon Moon, Sleep With A Gun

Come, come inside
There's many places here
Where you can hide
Don't, don't be afraid
It only hurts
The very first time

Fall fast asleep
Fall fast asleep

Dried up and change my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell

Dried up and change my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell

Sleep with a gun
Sleep with a gun

Dried up and change my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell

Dried up and change my name
Drift back, behave the same
Want to believe in something else
Digging my hole to hell

Sleep with a gun
Sleep with a gun

Drive away, drive away
Drive away as fast as you can

Drive away, drive away
Drive away as fast as you can
