

Gooral, Khabaya (feat. Adrianna)

Please call me later
Don't call me hater
Without ... free
Is radiator
.. faster
I am multiplayer
Everone

And I give as much
As I can give
Bring the love to our heads
And I give as much
As we can give
Bring this love like
Fire into space

Capture perspective
Flying collective
What you gonna do?
It should be good
It should be you
But anyway
it's love
Keep your mind around
Never, never, never stop!

And I give as much
As I can give
Bring the love to our heads
And I give as much
As we can give
Bring this love like
Fire into space

Nobody can tell you
This love is not enough

Let's love!

All I give is love
Put your hearts above
/3x

Nobody can tell you
This love is not enough

let it glow!
