

Gorchitza Live Project, One new message

Please, stop callin' me up
You are startin' a fire
It's just an old song we re-wind to the start
Still you got me
Got me inspired
You're in every moment
You're in every sound
When the day is dawnin'
You right up all around
I look back to reach you
But it makes me blue
What's the meanin' the meanin'
The meanin' of you?
Please, stop callin' my name
All your lies make me tired
I can't face it again
Still you got me, got me inspired
And I let you live in my dreams
But be quiet, don't whisper
You love me
Don't get down on your knees
You know how
How to inspire me
