

Gordon Lightfoot, Always On The Bright Side

You are like a wish come true I'm counting on you
Through two shipwrecked eyes I come to see
Everything I had to give has been given to you
Baby that's the way it all should be
Always on the bright side
Keeps it kind of light
That girl gets friendlier each day

Love alone will keep me breathing all through the night
In that quiet place where dreams abide
You and I together are a bit of all right
Feeling good is how we wish to be

Always on the bright side
Always out of sight
Nesting like two eagles in the trees

Always on the bright side
Keeps it kind of light
That girl gets friendlier each day

Always on the bright side
Always out of sight
Nesting like two eagles in the trees
