## Gorefest, The Mass Insanity

Your mind is overtaken By the ignorance of mankind Stop thinking about your future Just living for today Living for today

But what's the point of your life When you cannot think, just follow rules When emotions are based on hatred The truth upon lies

The downfall of humanity Is caused by mass insanity Neglecting of self consciousness Leads to self-destruction

The killing of our environment Means the end of our existence You had your fun, your game to play So it's only you who is to blame It's only you who is to blame

The downfall of humanity Is caused by mass insanity Neglecting of self consciousness Leads to self-destruction

You live in fear, it's now too late Your future has been written Your life will never be the same Though it's only you who is to blame It's only you who is to blame
