

# Gorguts, Hideous Infirmity

Suddenly facial remains everywhere  
Perpetual disfigurement that I'll have to bear

My hideous infirmity  
Brings disgust to their faces  
Destined to have a mask  
Stuck on my face forever

Unconscious, here I lie  
As I'm waiting my demise  
The only thing that I had in my mind  
Was to leave this world for a better life  
But I never thought I would fail  
My inflicted homicide

Grafting and countless surgeries  
Just can't embellish my monstrosity

Grafting and countless surgeries  
Just can't embellish my monstrosity

Gruesome scars on my face  
Which will never be erased  
Having lived with this pain in mind  
Make me see this world through a different eye  
But it's up to them to change  
Their biases inside

When I came near losing my own life  
It made me learn the true meaning of a smile

My hideous infirmity  
Brings disgust to their faces  
Destined to have a mask  
Stuck on my face forever
