

# Gorguts, Rapturous Grief

Dead with pride  
Hopelessness behind...I ascent  
Feeble minds  
Regret in their eyes...They repent  
Inner horizon  
I glorify my death in peaceful solitude  
Obscure concept of blissful imagery  
Rapturous Grief

AS my soul rises Transparency, I reach...  
far from this world, I'll be  
Lost within darkness  
Timeless dormancy is  
where now I shall dwell  
Cast beyond mortals  
The faceless ones, I meet  
The faceless ones are cleansing me

Grotesque earthly love behind  
I leave the sun behind  
Splendid fluid transparency ashore  
Within darkness, I dwell

The carnal state, I escape  
Life is now a part of past extracted from me  
The carnal state I forsake  
Death is now a part that  
Last longer than life and its misery

Mindless soul  
Pure consciousness  
My internal dream was my eternal fear

(repeat 1st verse)
