

Gorguts, The Erosion of Sanity

Man's sanity has not provided
For an imminent derangement
Life won't be able to handle
The psychological sickness

Encephalitis' treatments are unknown
In a perpetual sleep, they're swallowed

A decrease in all capacities
Mentally you're becoming obsolete
Infection in your brain, it creates
A slumber that no one can awake

Nailed in your chair, you're living dimly

[Lead: Lemay]

Sudden rise of lucidity
Your wretched life is complete
As before, now you can see
Walk and talk normally

How long will i be
Saved from my disease?

[Lead: Marcoux]

Unexpected relapse into sickness
Brought you back to an everlasting sleep

[Lead: Lemay, Marcoux]

Back in your chair, you're living dimly
