[VERSE 2: D.Woods]

See the cars that you drivin, the diamonds, they just see the shine

Not what's behind the man

Not what he stands for

Made up they mind when you walked in the door

Hear the words you sayin and they want more

Don't know hustle, don't know struggle

So you gotta lay it out before him

They don't understand you, No

[Gorilla Zoe:]

They don't see the grind, they only see the shine  
 Lookin for the light but the money got em blind  
 All we know is hustle, a life full of crime  
 Battlefield n\*\*\*\*s we stay on the frontline (ATTEN-HUT)

 And you'll see (see)  
 There's a whole nother side of me  
 You feel me?  
 Gotta look deep inside  
 I'm like Heckel and Clyde  
 One man two lives, I'm confusin you right  
 Take a look in my eyes, you can look in my soul  
 Ain't no love in the streets so it left my heart cold  
 Before it's all ova and that big curtain close  
 It's more than meets the man, I'm jus here to let you kno.
