

Gorillaz, Stop The Dams

When You're Smoking In Tinfoil In The Morning
It's Gonna Be A Cold Day
When You're Keeping Everything Inside You
It Can Only Hurt You

Unrelated Sounds
The Sun Will Shine Again
You Hold It In Your Hands

This land is a young land let it stay that way
It's pollution only turns it to
Something you don't wanna see ever grow up
The reflection of the bad you receive

You Got On The Stars
And The Sun Won't Shine Again
So Maybe You're All In Love
[With / And] Aluminium

The Cling And A Clang
Is The Metal In My Head When I Walk
I Hear A Sort Of, This Tinging Noise
Cling Clang
The Cling Clang
So Many Things Happen While Walking
The Metal In My Head Clangs And Clings As I Walk
Freaks My Balance Out
So The Natural Thought
Is Just Clogged Up
Totally Clogged Up
So We Need To Unplug These Dams
And Make The The Natural Flow
It Sort Of Freaks Me Out
We Need To Unplug The Dams
You Cannot Stop The Natural Flow Of Thought
With A Cling And A Clang

And Wake Me Up Again Until
We're Aluminium
You Hold It In Your Hands
The Sun Will Shine Again
The Sun Will Shine Again
The Sun Will Shine Again
The Sun Will Shine Again
The Sun Will Shine Again
The Sun Will Shine Again
