

Gorillaz, The Pink Phantom (ft. Elton John & 6LACK)

You've more or less forgotten to
Me this summer
I can't hide my disappointment

I was on my way in the Phantom fire
The one you gave away

Try to tell you
That i loveyou
But i told ya
You forgot and that makes me feel like
No one
Some Times

Did you ever really feel?
Did you ever really feel?
Wait
I got so many examples of all
Of the good Times we had
Put your name in my phone
Refresh your memory
The way you wanna be
The phantom's run away
She's comin' down the street

I tried to get to Atlanta
On a peach blossom highway
I am trying to put these puzzles out of mind
In a sky made of diamonds
Where the world fell silent
I will be waiting for you on the outside

Summer nights
(Everyday /2x)
Sometimes
(Ride where the summer goes)
Summer nights
Every night
