

Gorillaz, Tranz

Oscillate yourself tonight
When you're in your bed
Assimilate the dopamine
passing through your head

when you get back on a Saturday night
and your room in caving in
do you look like me
do you feel like me
do you turn into your effigy?
do you dance like this?
forever

see your with cupid's flame
Chipped in you head
do you indicate, the satellites
passing by the edge

when you get back on a Saturday night
and your room in caving in
do you look like me
do you feel like me
do you turn into your effigy?
do you dance like this?
forever

do you dance like this?
forever
forever

do you burn like me
do you burn like me
do you burn like me
do you burn like me
do you burn like me
do you burn like me
do you turn into your effigy?
do you dance like this?
forever
do you live like this
forever
do you dance?
do you dance?
do you dance?
do you dance?
