

Gorky Park, Ocean

Take me back to see the ocean
Bearing sound'o'waves devotion
Wash away the words corrosion
That we left behind

Clean me up with wind and water
I'm your sun and you're my daughter
I won't let this moment slaughtered
In my burning mind

And when I'm lost inside the walls
I'd live this moment more and more
So blind I can't help it
Lost inside the walls
I need this moment more and more
So blind I can't help it

Searching ways for understanding
I would lose my boat stranded
Now I know I was defending
Castle on a sand

Take me back to see the ocean
City's draining my emotions
Let me have a healing potion
Sipping off your hands
