

Gotthard, Here Comes The Heat

Hurricane rollin' speedin' over desert sand
Pedal to the metal, yeah I'm doin' all I can
Hot wind blowin' in my face n' I feel free
When I'm drivin' on the dusty roads of no man's land

Don't dare to stop me
I won't get outa your way

Got a one way ticket n' I don't care what they say
Got a one track mind and I'm doin' it all my way
Had to learn the hard way dreams are made of steel
Tomorrow never mind cuz' I live just for the day

Don't dare to stop me now
Or I blow you outta my way

Here comes the heat
Like you never knew before
Here comes the heat
Burnin' down your door

I'm a Super Nova faster than the speed of light
Move outa my way if you don't wanna start a fight
Rockin' all over nothing you can do
Comin' up for more the target in my sight

Don't dare to stop me now
Or I blow you outta my way

Here comes the heat
Like you never knew before
Here comes the heat
Burnin' down your door

Here comes the heat
It's comin' more and more
Here comes the heat
