

# Gotthard, In The Name

Across the desert, through the plains  
Freedom riders, in anger they came  
Under cover o' prophets  
And the words of the saints  
Doin' all for the justice  
Doin' all for the gain

Anytime, anywhere  
The fighting goes on  
Anytime, anyday  
See those lives get blown away

In the name, in the name of some god  
They're fighting for nothing  
Spilling their blood  
In the name, in the name of a sin  
All running for cover  
In a fight they can't win

Unhold is the promise  
You're leavin' to die  
On the gates of eden  
You can't tell no lie  
Hear the moans of the young ones  
Left out in pain  
It's the law of the strong ones  
Who's leading the bane

Anytime, anywhere  
The fighting goes on  
Anytime, anyday  
See those lives get blown away

In the name, in the name of some god  
They're fighting for nothing  
Spilling their blood  
In the name, in the name of a sin  
All running for cover  
In a fight they can't win
