

# Gotthard, Long Way Down

Hey hey hey  
I don't believe any word you say  
There must be somebody else today  
To call on the line

My my my  
How many times did you make me cry  
You must have taken me for a fool  
But that was a lie

Now another chance to say maybe  
D'ya think I'm really that crazy  
Do I need to tell you why, why, why  
I'm thinking it's a

Long way down  
Every time I turn around you're headed for a  
Long way down

Time, time, time  
For you to learn to read the signs  
You better stick to your own kinds  
Get outta my way

Go, go, go  
I've never met anyone so cold  
I see you walking along the edge  
Falling into the hole

Now an easy thing to discover  
No way you're pulling me under  
You're head is on the wire, wire, wire  
It's gonna be a

Long way down  
Every time I turn around you're headed for a  
Long way down
