

Gotthard, You

Something's wrong, doctor please
Got a strange heart disease
And I desperately need to get over
This temptation

There she stands day by day
And my life turns away
It was love at the first sight
And I know this won't come easy

Couldn't move, I was petrified
Couldn't talk, when she passed me by
Now she's constantly part
In my thoughts, in my heart
Can't hold another day

All I want is you, you, you
Nobody else but you, you, you
Come rain and shine
It's all the same
Everytime I call your name

Certain things meant to last
Some others, part of the past
I know that I can't be wrong
Lovin' you

So gimme a chance, a little sign.... And I know
That one day you're mine
I want you to know no way I let go
Surrender to my love

All I want is you, you, you
Nobody else but you, you, you
Come rain and shine
It's all insane
Everytime you play that game

All I want is you, you, you
Nobody else but you, you, you
Come rain and shine
Its all the same

All I want is you, you, you
Nobody else but you, you, you
Come rain and shine
It's all insane
Everytime you play that game
