

# Gowan, Burning Torches Of Hope

Wonder, where our world is heading for  
The future, it's filling us with fear  
We stumbled, in a pit too deep this time  
We don't know, if we'll make it out  
Still, there's a way  
Where there's a will  
Are you ready to try  
(chorus)  
Let our love lead us  
On with those  
Burning torches of hope  
Could they ever lead us astray  
Don't let them defeat us  
We're on our own oasis of joy  
No, don't let it be swept away  
Darkness, only gets the faint of heart  
Ant they're helpless  
Or so they seem to think  
Frightened, You see them running everywhere  
Warning, everyone beware  
Still, there's a way  
Where there's a will  
Are you ready to try
