

Gowan, When There's Time (For Love)

The timing's wrong
You're out there eager to fly
I'll say so long
But I'll sure be watching the sky
When your wheels finally touch the ground
Look me up, I'll be around

(chorus)
When there's time for love
I want to be there
When you've got all night for love
I see you and me there
Well maybe our time isn't now
But it will come around

Must be nice
Out there chasing the stars
I've tried it once or twice
Flew real high and I fell real hard
Do what you've got to do
Make every single dream come true

(repeat chorus)

Yes it will come around, it'll come around
And when you think your soaring days are done
You're going to find out
How they've just begun

When your wheels finally touch the ground
Look me up, I'll be around

(repeat chorus)
