

Gowan, You'll Be With Me

Now I must leave
But before I do
For the parting shot
Let me look at you
You've known my mind
More than anyone
When all else has passed
This will linger on

You'll be somewhere
In that place where
I'll be going
You will always
Be beside me without knowing
Every moment you'll be with me
Every moment you'll be with me

Life isn't fair
You'll hear people say
Everyone you love
Time will take away
But save all your tears
This is not good-bye
Some things cannot change
Some things cannot die

You'll be somewhere
In that place where
I'll be going
You will always
Be beside me without knowing
Every moment you'll be with me
Every moment you'll be with me
