

GPKISM, Metempsykchosis

Slowly sinking to your arm....
This fantasy keeps calling for me
Slowly floating to the sky....
This melody you whispers to me
Heaven sent you to my heart...
~eternality is waiting for me~
Infernal fire cleanse me
~ my soul entrapped forever by you~
I've been searching for the place,
Where our love could stay without sorrow and pain.
We shall find our paradise,
Where our souls shall burn by the ever lasting love
