

Grace Slick, Let It Go

Some people say "Don't go away just stay right here"

Some say "If you stay at home you're gonna wind up alone"

Now you know you can't go two different

ways you can't believe everything you hear

And if you always do just what you're told

then you've got no mind of your own

So if each man has a different plan let 'em go let 'em go

You have a power all your own

There's a spirit child inside you ready for life and I know

It's just waiting to see how you will grow

And when the spirit feels the need to wander let it go

Sometimes they say the only way is to really sing that song

Sometimes they say you're singing that way too loud too long

And if they can't make up their minds then I think I'll make up mine

Whatever way I feel is the only way I'm gonna sing that song

And if people don't seem to like it that's O.K. let 'em go

Some day they'll sing a song of their own

'Cause there's a spirit child inside them ready for life and I know

It's just waiting to see how they will grow

And when their spirit feels a need to wander I'm sure they'll go

Some people said "Try this,it'll make your smile"

Some said "Don't touch it, you end up crying"

Well it felt so good for a while but then I saw too many dying

When all they wanted to do was get a little higher

So if the game won't follow through let it go let it go

And leave the loaded dice alone

'Cause there's a spirit child inside them ready for life and I know

It's just waiting to see how they will grow

One too many-users lose it all

Then there's no one-no one to help then break the fall

People just like you who say "Oh no that won't be me"

End up face down-is that where you wanted to be

So if it's going to bring you trouble let it go let it go

Remember that doesn't mean you'll be all alone

'Cause there's a spirit child inside them ready for life and I know

It's just waiting to see how you will grow
