

Grace VanderWaal, City Song

[Verse 1]

Fresh laid concrete
Melodies blowing
Don't care where we're going
But the day is wasting
So just keep moving
But take it all in, hey!

[Pre-Chorus]

The rumble of voices
Are the bass to our song
The horns are just on the beat
Honkin' along
Let's be the harmony
But no note is wrong

[Chorus]

And let's take the city
And make it our song
Our song
Our song
Let's take the city
And make it our song

[Verse 2]

Pencil tapping
Feet speed walking
Cars just driving
Daydream gazing
So just keep moving
And take it all in

[Pre-Chorus]

The rumble of voices
Are the bass to our song
The horns are just on the beat
Honkin' along
Let's be the harmony
But no note is wrong

[Chorus]

And let's take the city
And make it our song
Our song
Our song
Let's take the city
And make it our song

[Bridge]

Everything going on around you
Just close your eyes
And disconnect for a moment or two
And hear

[Pre-Chorus]

The rumble of voices
Are the bass to our song
The horns are just on the beat
Honkin' along
Let's be the harmony
But no note is wrong

[Chorus]
And let's take the city
And make it our song
Our song
Our song
Let's take the city
And make it our song
