

Grace VanderWaal, Waste My Time

[Verse 1]

Runnin' with you it's like we're in a memory
That we'll try to forget when you grow up and leave
Walkin' slow because the time's been running far
Maybe I should grow up, leave you with a scar

[Pre-Chorus]

You say "I love you" with an accent
Then I pretend like nothing happened
Tell me, won't you miss Manhattan?
And even though this is pointless
And even though this is hopeless

[Chorus]

I just wanna waste my time
And I just wanna waste your time
We can do anything you like
We can talk all night (ooooh)

[Verse 2]

I'm unsure of you because I know you'll leave
You say you love me but I whisper "I don't believe"
Stopping moments cause I can't let it be true
This is going nowhere but I love wasting my time with you

[Pre-Chorus]

You say "I love you" with an accent
Then I pretend like nothing happened
Tell me, won't you miss Manhattan?
And even though this is pointless
And even though this is hopeless

[Chorus]

I just wanna waste my time
And I just wanna waste your time
We can do anything you like
We can talk all night (ooooh)
Just waste my time
Waste your time

[Pre-Chorus]

You say "I love you" with an accent
And then I look away and act like nothing happened
Tell me honestly, will you miss seeing Manhattan?
And even though this is pointless
And even though this is hopeless

[Chorus]

I just wanna waste my time
And I just wanna waste your time
We can do anything you like
We can talk all night
I'll pretend you're mine
Just waste my time

[Outro]

Waste
(My darling you have one life)
(And time will fly so)
My time
Waste
(You should be wise)
(For you I'd happily waste mine)
Your time

(You have one life)
Waste, waste
(And time will fly so)
My time
Waste
(You should be wise)
(For you I'd happily waste mine)
Your time
