

# Gracious, Introduction

Born from his hands,  
A wonderful man  
made him a name to remember.  
Two-thousand years  
of blood toil and tears  
all have the fun to remember.

(chorus)Close your eyes if you want wind  
with you around your head let it go let it feed you.  
Take a trip through your mind  
and let your mind trip to the things that we do.

Now that it seems  
to work on a dream  
that one of us guarded together.  
And before long,  
that could be a song that  
which you would make last forever

(chorus)

Heaven and hell  
are both doing well  
showing the distance between them.  
One of two more  
to make you feel sure  
now you have got to believe them.

(chorus)
