

# Graham Colton Band, First Thing On My Mind

I do all this, not knowing  
and I give myself away  
and she says w/ soft skin  
that I can't tear away  
and we are still peaking at life when we're away  
and all this, im seeking is the last thing that I say

OH, time, we watch it tick  
but noone seems to notice  
Oh, time, I'm twisting

Gonna see the first thing on my mind  
OH, on my mind  
see the first thing on my mind  
woohoo, on my mind

Have they reached the point when  
they turn to someone else?  
Can you find the ocean?  
Instead we put all our faith in and  
sung out the sirens they say

Oh time, we watch it tick  
No one seems to notice  
And oh time, I'm twisting  
Gonna see the first thing on my mind  
ohh She's on my mind  
See the first thing on my mind  
oohhh yea....

Little girl, where have you been?  
Daddy's wallet and his bottle of gin  
Little girl, you owe one more  
She's just misunderstood for  
A poor little rich girl  
ahhh First thing on my mind  
First thing on my mind  
ohhh nahh

Do you run into things?  
Do you duck behind your back?  
Do you slit your wrist with the knife we used to  
cut you some slack  
And we say, ohh time  
We watch and say, no one seems to notice

Oh, time, I'm twisting  
Going to see the first thing on my mind  
See the first thing on my mind  
She's on my mind  
see the first thing on my mind  
She's on my mind  
ah no no  
She's on my mind  
Ohh ahhh....
