Graham Coxon, Fags And Failure

Don't know what I'm doing here
Days are full of chips and beer
I've found myself alone again
Tell me what went wrong my friend

Fags and failure every day
Fags and failure every night
Fags and failure till I lay down and die

I am feeling really bad
Life is turning me hlaf mad
Voices shout inside my head
Can't seem to get outa bed

Fags and failure every day
Fags and failure every night
Fags and failure till I lay down and die

What is happening in my brain
I think I've gone completely insane
Help me baby help me please
This thing has got me on my knees

Fags and failure every day
Fags and failure every night
Fags and failure till I lay down and die

Fags and failure every day
Fags and failure every night
Fags and failure till I lay down and die
