

# Grammatrain, Getaway

If I could ride this slide into forever  
What would I give to getaway  
That pain, that stain,  
Seems like forever  
What would you give to getaway

I know this is how I could be over you  
You know this is not another waste of time  
All this holding on cant be wrong  
Just come back to me and I am not alone

You had your man your fan but not forever  
You should have let him  
You should have let him getaway  
But your pride made you ride on this slide by his side till his lies  
Seemed like forever  
What would you give to getaway

I know this is how I could be over you  
You know this is not another waste of time  
All this holding on cant be wrong  
Just come back to me so I am not alone  
To getaway  
To getaway  
To getaway  
To getaway

I know this is how I could be over you  
You know this is not another waste of time  
All this holding on cant be wrong  
And I know this is how I could be over you  
You know that I am not another waste of time  
All this holding on cant be wrong  
If you come back to me so I am not alone  
To getaway
