

# Grammatrain, Rocket Ship

Do you have a rocketship  
I could fly?  
Could we watch the world grow small  
From the sky?  
Set across and leave this place  
For a while  
We would leave  
We would see  
The world a different size

Let's fly a rocketship off the ground  
Come on and break through the speed of sound

Sometimes I feel caged inside  
My life span  
If I saw the earth as a  
Distant land  
All my problems would feel like  
Grains of sand  
Sifted through  
Sifted through  
Sifted through my hands

Let's fly a rocketship off the ground  
Come on and break through the speed of sound

Jesus above space  
And time  
Died so we don't have  
To die

Jesus above space  
And time  
Died so we don't have  
To die

Have to die  
Have to die  
Have to die  
Have to die

Jesus above space  
And time  
Died so we don't have  
To die

Let's fly a rocketship off the ground  
Come on and break through the speed of sound
