

Grandaddy, Ammo

dont change your name
keep it the same
for fear I may loose you again

I know you want
it's just that I am unorganized
and I wanna find you when
something could happen

If you come down
We'll go to town
I haven't been there for years

But I define
wasting our time
not doing anything here
And you stealing nothing

We sit for days
and talk about things
important to us
like whatever

We'll defuse bombs
walk marathons
and take on whatever to gather

whatever could gather.....x5
