

# Granddaddy, Why Took Your Advice

I took your advice  
And turned my cable off  
You said you'd do it too  
How come you never call?

I took your advice  
And fixed my radio  
But I can't find anything  
That sound good anymore

I took your advice  
And bought the microscope  
But I can't find anything  
I wanna see up close

I took your advice  
I took your advice  
I took your advice  
(?)
